## FOR IMMEDIATE RELEASE

### **R.C. Systems Inc. Announces New Texas Representatives RBI Solutions and Norse Technologies**

Hitchcock, TX January 18, 2021 – R.C. Systems Inc. is excited to announce the appointment of RBI Solutions and Norse Technologies Inc. as exclusive R.C. Systems representatives for North and South Texas.

"We are pleased and excited to partner with RC Systems and view this as a great opportunity. R.C. Systems is extremely customer centric; with the ability to design and build any custom gas detection product you may need." said Bill Stahl, President of RBI Solutions.

RBI Solutions is a manufacturers' representative/distributor serving Texas since 1996. RBI is a value-added sales partner supporting a variety of industries with an emphasis on complete customer satisfaction through the sale of industry leading products and services. RBI Solutions' goal is to support our customers in their effort to improve product quality, life and plant safety as well as process performance.

"Norse Technologies is excited about the opportunity to represent such a well- respected product line to customers in our industry. I am excited about the opportunities it will provide both Norse and R.C. Systems and look forward to a long and productive relationship between our companies." said Brian Lund, President of Norse Technologies, Inc.

Norse Technologies, Inc. is a premier manufacturer's representative for industry leaders in process control instrumentation, hardware and software for calibration equipment, measurement data-acquisition equipment and imbedded device systems, Norse focuses on custom solutions that produce real-time, right-on measurements that are consistent, repeatable and reliable.

Since its founding in 1997, Norse Technologies, Inc. has grown to be one of the premier manufacturer's representatives in the South and Southwest. A full-service sales and service company for instrumentation and measurement solutions; calibration equipment; Norse sells directly to customers in the oil and gas, petrochemical, pharmaceutical, semiconductor and aerospace industries; and metrology and scientific laboratories

"Both RBI Solutions and Norse Technologies has sales teams with a long line of experience and expertise in the gas detection industry. With these two companies serving as our exclusive representative in Texas, we will become more engaged with a variety of industries, especially in the Greater Houston and Metro Dallas area; which will further strengthen our ever-growing sales and service. We are thrilled to have these two heavily experienced representatives join our team. The quality of our product line and the unmatched support we give to our representatives has made us stand out as a great company to grow with," said Wu Qirong, CEO, R.C. Systems Inc.

RC Systems Inc. has manufactured Gas Detectors and Critical Alarm controllers since 1979. You can find our products in many different application areas. Our products are well known, where maintenance and safety are crucial, for their reliability, performance and ease-of-use. Applications include fixed and temporary ambient gas detection as well as numerous other multi-signal monitoring applications using both wired and wireless communications.
