

Limited Warranty Registration

All products are designed and manufactured to the latest internationally recognized standards by R.C. Systems under a Quality Management System that is certified to ISO 9001 standards.

As such, our instruments are warranted under proper use, to the original end-user purchaser, against any defects in materials or workmanship related failures for a period up to 5 years* from the Purchase Order ship date or delivery from R.C. Systems to the customer, whichever is less. During this period, R.C. Systems will repair or replace defective parts on an exchange basis.

This warranty does not cover damage caused by accident, abuse abnormal operating conditions or extreme poisoning of the sensor element.
