

Calibration Gas Kit

"The Art of Gas Detection"

Calibration Gas Kit in Case

FEATURES HIGHLIGHT

- Plastic carrying case capable of holding up to (2) 116 Liter bottles
- Calibration gas available for a variety of gases with precision and quality consistent with NIST (National Institute of Standards and Technology) standards
- 0.5 LPM fixed flow regulator
- Tubing included suitable for both reactive and non-reactive gases.

5.8L Bottle

Ammonia
Benzene
Carbon Dioxide
Chlorine
Chlorine Dioxide
Hydrogen
Hydrogen Chloride
Hydrogen Sulfide
Methane
Nitric Oxide
Nitrogen Dioxide
Oxygen (Zero Air)
Pentane
Propane
Sulfur Dioxide
Many More.....

105L Bottle

Benzene
Carbon Dioxide
Carbon Monoxide
Hydrogen
Isobutylene
Methane
Nitrogen
Oxygen (Zero Air)
Pentane
Propane
Many More....

116L Bottle

Ammonia
Chlorine
Chlorine Dioxide
Ethylene Oxide
Hydrogen Chloride
Hydrogen Cyanide
Hydrogen Sulfide
